- a. The 253rd AFA Bn was actually an independent unit that was only attached to the 6th Armored Division for a short time, but its members are identified as Sixers at the ABMC cemeteries and we are proud to include them in these listings.
- b. 1st Lt. Shadden was actually with the 90th Division at the time of his death, not the 6th Armored Division which was still coming ashore at Utah Beach and assembling in Le Mesnils. But “6th Armored Division” is on his gravestone and we are proud to include him as a Sixer.
